	Steam Showers		wall only

Material Data		Calacata	Crema
MEDIUM	Color Variation		✓
HIGH	Color Variation	✓	

Sealing

		Calacata	Crema
	Must be sealed for use in areas that experience frequent wet conditions	✓	✓

Cleaning and Maintenance

	Protect from harsh abrasive cleaners and tools *Recommended*: Oceancare or Dry Treat products

Notes:
- We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone. Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools.
- White thin-set or mortar is required: light limestones, tumbled stones, "antiqued stones", and light colored marbles
- Likely identified with dry seams, pits, fossils and glass veins that are often filled at thefactory. *The fill may perhaps leak through the voids. In this case, refilling these voids may be a necessary maintenance procedure.*
