Biseau[™]

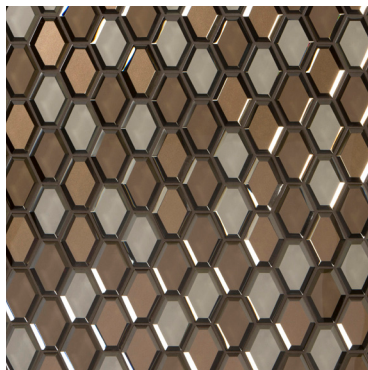

Shown | Topaz Hexagon

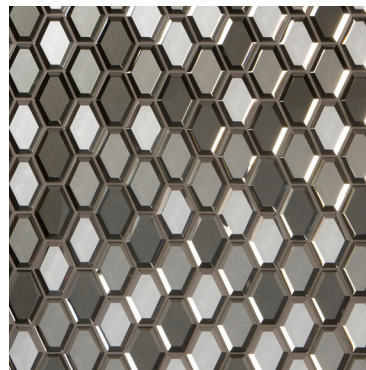

BiseauTM

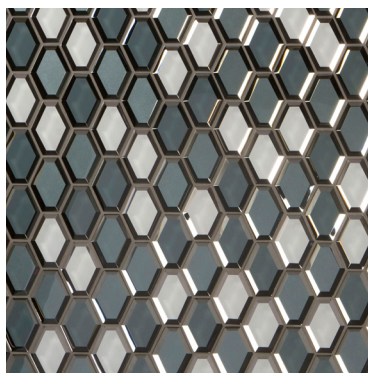

This elegant expression of design features mirrored and back-painted tiles of beveled glass that reflect the various hushed tones of soft and understated jewels. Crafting the sophisticated narrative of Paris with topaz, smoke, and bronze, this playful collection juxtaposes natural light with neutrals and striking color through carefully placed geometric tiles. Inspired by Parisian affectations and offering the illusion of dimension through mirrored surfaces, the collection tells the enchanting story of the City of Light.
