

WALKER ZANGER™

CITY BRICKS

CITY BRICKS

Inspired by the details of neo-Gothic architecture still alive today, City Bricks takes the rustic character of real brick to another level with a more modern, fashionable feel. This exclusive collection is both innovative and environmentally responsive as the tiles contain 31% recycled post-industrial content and 58% locally sourced natural clay. City Bricks is Walker Zanger's first major Green Product collection. Each handcrafted tile features an authentic surface unique in its texture. Available in eight colors with gloss and matte finish options, City Bricks adds chic sophistication or organic sensibility to interior walls and residential floors.

All interior and exterior floor applications are recommended for tiles with a matte finish only. For installation on shower floors, please refer to TCNA guidelines and consult with your installer for proper waterproofing and sealing requirements. Crackle glazes should always be sealed prior to grouting. For further questions/information about usages, please consult with your installer.
