We invite you to explore Curated Elegance by Walker Zanger.

STUDIO MODERNE

"It's the dialogue between past and present that inspires my new designs for Walker Zanger. I love the versatility the new collection offers designers, from feature walls to kitchens and baths to bar fronts and beyond. This fresh take on dimensional marble tiles and mid-scale mosaics compliment the graphic silhouettes in the original Studio Moderne collection. Incorporating crisp calacata white marble, serene steel gray limestone and a gorgeous new blue celeste marble, my new designs recall the elegance and simplicity that are synonymous with Art Deco and Modernist forms."

FRAGMENTS

The beautiful story of terrazzo dates to early Greek and Egyptian times. The ancient art of combining marble fragments and cement reached the height of its glory in 16th and 17th century Venice and was revived in the modern style in the 1930s and 40s. Today, terrazzo is once again enjoying a renewed popularity as the historic roots meld with innovation and technology translating into a cultured, worldly expression brilliant for contemporary architecture and interior design.

Walker Zanger has partnered with one of Italy's oldest family-owned terrazzo tile makers to bring home the elegant and versatile Fragmenta Terrazzo collection, offering the highest level of quality while masterfully balancing ancient craft techniques with modern production processes to form artful floors, walls, façades and other surfaces applications.
