Vibe offers a fresh direction in wall tile, inviting you to cover entire walls with intricate patterns and saturated color. The collection’s bold shapes and extravagant hues were inspired by designs from the 1960s and ‘70s, when creative visionaries like fashion designer Emilio Pucci and interior designer David Hicks redefined the visual world. Vibe weaves these influences into a tapestry of tile treatments, from playful, organic forms to crisply modern angles. Whether you long to fully “funkify” your pad or just add retro pizzazz to your backsplash, Vibe’s got you covered.
