TATAMI

TATAMI

SIMPLE, ORGANIC BEAUTY TO COMPLEMENT ANY DESIGN

Inspired by the woven floor mats traditionally found in Japanese homes, Tatami tiles are made of limestone by highly skilled craftsmen. The textured surface on each tile conjures a beguiling visual softness while maintaining the durability, and versatility of natural stone. Offered in a variety of simple sizes and colors, Tatami tiles are perfectly suited for any space that needs a touch of tranquility.

For installation on shower floors on all products, please refer to TCNA guidelines and consult with your installer for proper waterproofing and sealing requirements. All Tatami products are made of natural stone product. We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone. Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools. White thin-set or mortar is required for the following: light limestone, tumbled stones, "antiquated stones" and light-colored marbles. It is possible that dry seams, pits, fossils, and glass veins are often filled at the factory. The fill may perhaps leak through the voids. In this case, refilling the voids may be a necessary maintenance procedure. For further questions/information about additional usages, please consult with your installer.
