	Sealing is required prior to grouting

Cleaning and Maintenance	
	Damp cloth and a gentle non-acidic soap

**Notes:**

- We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone.
- Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools.
- Use caution when using as flooring other than light traffic, this stone has high potential to scratch.
