Grout and Sealing				
Sealing Required		✓	✓	✓
Grout with white thinset		✓	✓	
Cleaning and Maintenance				
Protect from harsh abrasive cleaners and tools <i>Recommended: Oceanscare or Dry Treat products</i>				

Notes:

- We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone. Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools.
