The Tuileries Collection offers a fresh take on classic French motifs, splendidly reborn in carefully edited decorative patterns, perfectly suited for today's refined interpretation of traditional style. The collection's name is inspired by the Jardin de Tuileries, which is the "central park" of Paris. "Tuile" means tile in French, and this historic park started its life as a clay quarry and tile workshop in the early 13th century. What could be a more fitting name for a collection that celebrates the heritage of French handmade tile and design?
