Sealing

Sealing is required

Cleaning and Maintenance

Damp cloth and a gentle non-acidic soap

Notes:
• We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone. Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools.
• Shower floor application is appropriate for **windsor white tiles only.**
