Sealing is required prior to grouting

Clean with a damp cloth and a gentle, non-acidic soap

ADDITIONAL NOTES

Installation on floor is not appropriate for crackle glaze. Installation on exterior wall is only recommended for non freeze/thaw climates. For installation on shower floors, please refer to TCNA guidelines and consult with your installer for proper waterproofing and sealing requirements. Gramercy Park tiles are handcrafted, and due to the nature of the multi-step glazing and staining process, there may be significant variation between tiles. In addition, glaze lots may vary significantly. All tiles should be sealed prior to grouting. For further questions/information about additional usages, please consult with your installer.
