Residential Interior Wall

Residential Exterior Floor

Residential Interior Floor

Shower Floor*

Shower Wall

Steam Shower Floor

Steam Shower Wall

MATERIAL DATA

V4 Color Variation

MAINTENANCE

Sealing is required

Clean with a damp cloth and a gentle, non-acidic soap

ADDITIONAL NOTES

Calacatta Classico marble tiles are a natural stone product. We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone. Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools. White thin-set or mortar is required for the following: light limestone, tumbled stones, "antiquated stones" and light-colored marbles. It is possible that dry seams, pits, fossils, and glass veins are often filled at the factory. The fill may perhaps leak through the voids. In this case, refilling the voids may be a necessary maintenance procedure. For installation on shower floors, please refer to TCNA guidelines and consult with your installer for proper waterproofing and sealing requirements. For further questions/information about additional usages, please consult with your installer.
